

knikerboker

the art of hand made

[Grand'Confusione]

Knikerboker presenta creature che nascono da mondi e confini tra le diverse sfere della creatività: arte-moda e design si fondono per dare vita a sculture luminose dove gli angoli si smussano per creare enormi cerchi o un alternarsi di forme concave e convesse che sinuose illuminano con bassissimo impatto ambientale.

Knikerboker presents the creatures that come from different worlds and boundaries between the spheres of creativity: art-fashion-design come together to create light sculptures where the corners are smoothed to create huge circles or alternating concave and convex curved light with very low environmental impact.
